eading 2003

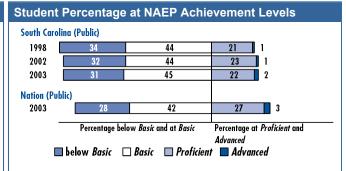

South Carolina Grade 8

Snapshot Report

The National Assessment of Educational Progress (NAEP) assesses reading in three contexts described in the NAEP framework: reading for literary experience, to gain information, and to perform a task. The NAEP reading scale ranges from 0 to 500.

Overall Reading Results for South Carolina

- In 2003, the average scale score for eighth-grade students in South Carolina was 258. This was not found to be significantly different¹ from the average score in 2002 (258), and was higher than the average score in 1998 (255).
- South Carolina's average score (258) in 2003 was lower than that of the nation's public schools (261).
- Of the 53 states and jurisdictions² that participated in the 2003 eighth-grade assessment, students' average scale scores in South Carolina were higher than those in 7 jurisdictions, not significantly different from those in 11 jurisdictions, and lower than those in 34 jurisdictions.
- The percentage of students in South Carolina who performed at or above the NAEP Proficient level was 24 percent in 2003. This percentage was not found to be significantly different from 2002 (24 percent), and was not found to be significantly different from 1998 (22 percent).

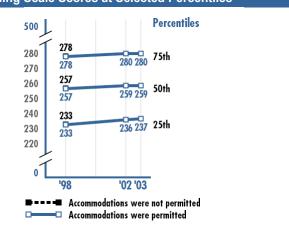

NOTE: The NAEP reading scale ranges from 0 to 500, with the achievement levels corresponding to the following points: Below Basic, 242 or lower; Basic, 243-280; Proficient, 281-322; Advanced, 323 or above.

Performance of NAEP Reporting Groups in South Carolina						
	Percentage	Average	Percentage of students at			
Reporting groups	of students	Score	Below Basic	Basic	Proficient	Advanced
Male	48	253	36	45	18	1
Female	52	263	26	46	26	2
White	54	269	18	47	33	3
Black	43	244	47	43	9	#
Hispanic	2					
Asian/Pacific Islander	1					
American Indian/Alaska Native	#					
Free/reduced-price school lunch						
Eligible	47	247	42	44	13	1
Not eligible	51	268	20	46	31	3

Average Score Gaps Between Selected Groups

- In 2003, male students in South Carolina had an average score that was lower than that of female students (10 points). This performance gap was not significantly different from that of . 1998 (9 points).
- In 2003, White students had an average score that was higher than that of Black students (25 points). This performance gap was not significantly different from that of 1998 (25 points).
- The sample size was not sufficient to permit a reliable estimate for Hispanic students in South Carolina.
- In 2003, students who were not eligible for free/reduced-price school lunch had an average score that was higher than that of students who were eligible (21 points). This performance gap was not significantly different from that of 1998 (26 points).

Reading Scale Scores at Selected Percentiles

An examination of scores at different percentiles on the 0-500 NAEP reading scale at each grade indicates how well students at lower, middle, and higher levels of the distribution performed.

- # The estimate rounds to zero.
- --- Reporting standards not met; sample size insufficient to permit a reliable estimate.
- * Significantly different from 2003. ↑ Significantly higher than, ↓ lower than 2002.
- 1 Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Performance comparisons may be affected by differences in exclusion rates for students with disabilities and limited-English-proficient students in the NAEP samples and changes in sample sizes. NAEP sample sizes have increased since 2002 compared to previous years, resulting in smaller detectable differences than in previous assessments.

 2 "Jurisdictions" includes participating states and other jurisdictions (such as the District of Columbia and the Department of Defense Dependents Schools).

 NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for Free/reduced-price lunch is not displayed.

Statistical comparisons are calculated on the basis of unrounded scale scores or percentages. Visit http://nces.ed.gov/nationsreportcard/states/ for additional results and detailed information.
